Professional Summary

An enthusiastic and devoted undergraduate in Computer Science with a strong grounding in programming, software development, and cybersecurity. Specialize in cybersecurity, hands-on training as a junior pentester, and currently studying for CCNA certification. Development passions are around CI/CD, DevOps practices, and working with Linux OS. I am always interested in opportunities that would help me employ my skills in dynamic and tech-driven working environments.

Education

G. C. E. ADVANCED LEVEL - PHYSICAL SCIENCE STREAM (2020)

TAXILA CENTRAL COLLEGE, KALUTARA Z - 1.509

UNIVERSITY OF KELANIYA – SRI LANKA
BSC (HONS) IN COMPUTER SCIENCE

Technical Skills

LANGUAGES   **:** C/C# , Java, JavaScript, TypeScript, SQL, python, HTML5, CSS3, Sass

TECHNOLOGIES & TOOLS : Angular, ReactJS, Spring, Node.js, MongoDB, Native Hibernate, Java FX, ExpressJS, GIT, Docker

CYBERSECURITY   **:** Network Security, Penetration Testing (Junior Pentester), Vulnerability Assessment, CCNA Training

NETWORKING   : Network Configuration and Management (CCNA Level)

DEVOPS & CI/CD   : Jenkins, GitLab CI, Docker, Kubernetes

OPERATING SYSTEMS   : Linux, Windows

Projects

1. FULL STACK SHOPIFY APP
  Bloomingdale store simple clone with implementing place an order with admin privileges.
  (HTML5, SCSS, Angular, JavaScript, NodeJS, ExpressJS, MongoDB)

2. HEALTHCARE MANAGEMENT SYSTEM
  Hospital management system using JavaFX.
  (JavaFX, MySQL, Design patterns)

3. CYBERSECURITY AWARENESS PLATFORM
  Developed a web platform aimed at educating users on cybersecurity threats and providing actionable solutions. The platform incorporates interactive simulations, real-time threat updates, and victim assistance resources, all designed to raise awareness and help prevent cyber attacks.
