Professional Summary

I am a dedicated Computer Science undergraduate specializing in cybersecurity, with hands-on experience as a junior pentester and a strong foundation in programming and software development. I am currently researching advanced cryptographic techniques like homomorphic encryption and post-quantum cryptography to tackle modern security challenges. Passionate about CI/CD, DevOps, and Linux, I'm eager to apply my skills in dynamic, tech-driven environments.

Education

G. C. E. ADVANCED LEVEL - PHYSICAL SCIENCE STREAM (2020)

TAXILA CENTRAL COLLEGE, KALUTARA Z - 1.509

UNIVERSITY OF KELANIYA – SRI LANKA

BSc (HONS) IN COMPUTER SCIENCE

Technical Skills

LANGUAGES	: C/C#, Java, JavaScript, python, TypeScript, SQL, HTML5, CSS3, Sass
TECHNOLOGIES & TOOLS	: Angular, ReactJS, Spring, Node.js, MongoDB, Native Hibernate, Java FX, ExpressJS, GIT, Docker
CYBERSECURITY	: Network Security, Penetration Testing (Burpsuite), Vulnerability Assessment
NETWORKING	: Network Configuration and Management (Cisco Packet Tracer)
DEVOPS & CI/CD	: Jenkins, GitLab CI/CD, Docker, Kubernetes
OPERATING SYSTEMS	: Linux, Windows

Projects

1. FULL STACK SHOPIFY APP

Developed a comprehensive replica of the Bloomingdale online storefront which included robust admin capabilities for managing orders; utilized HTML5 and SCSS to ensure responsive design across devices.

2. CYBERSECURITY AWARENESS PLATFORM

Developed a cybersecurity awareness platform to educate users on cyber threats, including interactive content such as quizzes and practical solutions for simulated cyber incidents.
(React, NodeJS, ExpressJS, MongoDB)

3. DISNEY CLONE WEBSITE

Independently created a Disney clone website using React, demonstrating proficiency in front-end development and UI/UX design principles. (NextJS, MovieDB, Tailwind)

4. HEALTHCARE MANAGEMENT SYSTEM

Developed a Java-based desktop application to streamline administrative tasks in healthcare facilities, improving efficiency and data management.

Technical Projects

1. OPENSTACK CLOUD IMPLEMENTATION

Deployed and configured **OpenStack** using **MicroStack** to create and manage virtual instances and networks.

2. SERVER HARDENING WITH ANSIBLE

Automated server hardening on **RHEL** VMs using **Ansible** and **CIS benchmarks**, ensuring compliance with security best practices.

3. APPARMOR UTILITIES FOR LINUX SECURITY

Strengthened Linux system security by configuring and enforcing **AppArmor** profiles to restrict application behavior.

4. WINDOWS SERVER ADMINISTRATION

Set up and managed **Windows Servers**, including configuring DNS, DHCP, and monitoring client systems.

Extracurricular Activities

YouTube Channel: Anjula Handapangoda

Content Creator of a beginner-level YouTube channel focused on teaching the Spring Boot framework and backend technologies. I aim to provide educational content on cybersecurity, programming, and various computer science concepts, sharing my learning journey to help others build a solid foundation.

Certifications

COMPREHENSIVE MASTER JAVA DEVELOPER fulfilling the requirements of Oracle Certified Associate Java SE examination (**OCAJP**), Oracle Certified Professional Java SE examination (**OCPJP**), And Comprehensive analyzing, designing and implementing Java SE software solutions in covering major aspects of software developing standards.

LINUX ESSENTIALS

Cisco Networking Academy | [Oct, 2024]

CISCO VERIFIED ETHICAL HACKER(Ongoing)

Cisco Networking Academy

Professional Memberships

MEMBER TRAINING & DEVELOPMENT OFFICER

University ISACA Student Group | [2024-2025]

MEMBER

University Free Open-Source Software Community.

Languages - English (Fluent), Sinhala (Native)
